THE subscriber has for sale 75,000 ACRES OF LAND in Clinch county, originally Ware county, Georgia, in tracts of 490 acres each, but lying in bodies, containing from two to twenty lots. Nearly all of this land is well adapted to the Turpentine business. It lies on the head waters of the Suwannee, which is navigable during the winter and spring months for small crafts. A Railroad is being built, commencing at Brunswick, one of the finest harbors in the United States, and running West, and, it is believed,

will run through Clinch county. These lands will be sold in tracts to suit purchasers, who may want as much as 5,000 acres. A considerable deduction would be made to any one purchasing the whole. The above lands were bought of the State, and the title is undoubted, of which the purchaser can be assured before payment is required. Some of the lots are well adapted to the culture of Sea Island Cotton .-Clinch county lies immediately on the Florida line. A Map of the county will be in the hands of Mr. William

Williams, of Wilmington, some time in the month of Columbus, Geo., February, 1853.

1 51 LYON'S KATHAIRON FOR PRESERVING, RE-STORING AND BEAUTIFYING THE HAIR.

A MONG the many articles recom-mended for promoting a luxuriant and beautiful growth of the human hair, cleansing the head from Dandruff and its natural impurities, nothing has ever been discovered to compete with the virtues of the incontested-the incontestible KATH AIRON, either as a TOILET PREPA RATION in its softening and fragrant character, or to preserve and resuscitate fallen hair upon GREY and BALD HEADS. The Kathairon neutralizes the effect of disease, climate and old age, which so often cause the hair to fall off and turn grev.

Ladies and gentlemen wishing an artiele to cleanse, soften, curl and beautify their hair, should be particular and enquire for LYON'S KATHAIRON. It is sold by all Dealers throughou

From a long and powerful speech made by Mr Cobden at a late Peace Meeting in Manchester, which was attended by some six thousand persons, we take the following striking paragraph relative to the effects of a European war upon American commerce. The position is unquestionably a sound

Now, I have heard a great deal of trash talked, and have seen a great deal more written, about what is to be expected from the U. States of America, if we declare war with France. Don't deceive your selves. America is not coming to put herself in alliance with the Anglo-Saxon race to make war with France. (Cheers) If you go to war with France, I tell you what the United States will do, - the first thing they will do will be to assume a very bold attitude, and require you instantly to abandon that right of search which was claimed and exercised people abroad, whatever may be her mistakes at during the last war, and was left an open question home. even at the peace. AN EGYPTIAN "PISTOL"—The following good story of an Egyptian "Pistol," is told by Mr. St John, in his recently published travels. A fellow had become the terror of his village, but was known by his young wife whom he ill treated, to be a coward -Accordingly she plotted with a lover to compel him to a divorce. The production of gold is likely to be largely increased by an invention termed a quartz crusher. which has been brought out in England. A London letter in the National Intelligencer thus describes it : Capt Shrapnel's quartz crusher seems to be an invaluable aid to the gold diggers since it is not de pendent upon either fire or water, and has the great advantage of being small, compact, and easily transferred to its destination. It consists simply of an iron chamber, about ten feet long, five feet broad and eight feet high. Into one end of this an aper ture is made to admit the muzzle of a cannon, which moves backwards and forwards on a plane a few feet in length in front of the machine The piece of ordnance used, and which may be of any cali Your ships must leave your harbors and go and en- bre, is charged with lumps of the quartz supposed ic substances which it is desirable fo reduce; and having been moved towards the irott chamber, and commodities here under some other flag, and what will had its mouth inserted in the aperture afrendy men tioned, the piece is then discharged by means of gun cotton or gunpowder, and its contents blown with great violence against the further end of the structure, which has the immediate effect of breaking the entire charge of quartz into particles almost as small as tooth-powder, and collecting them on the floor, secure from any unauthorized intrusion from without.
